Like many of you in the great Northeast, Spring has finally arrived (about one month late). In solidarity, we have also felt that we have been about one month late with this update. To those of you who have waited more than 3 weeks for your books, our apologies. We have been backed-up with orders, and the US Postal Service this winter added 1-2 weeks to the normal delivery time, as everything mailed here was in the center of "snow country".

We have heard about the possibility of a conference in the New England area in the late Spring/Summer, but no date has been set. COPA (Coalition on Political Assassinations) did hold a Organizing Conference on April 22-24, and are planning a National Conference in Washington D.C. on October 6-10, 1994. We are providing additional information in this update.

Oops! We have been including a small advertisement on Surveillant magazine for a couple of years now. Unfortunately, we did not change the ad when they moved (although we re-directed their catalog) and did not change the cost of the subscription when they expanded the journal to 40 pages. A corrected ad is included in this update. As Allen Dulles once said, "Nobody reads. Nobody reads in America." Our apologies for not reading.

JFK: The Investigations

© 1994, Imagi-Vision, Inc.

NEW VIDEO From:
Imagi-Vision, Inc.

Why don't Americans believe the lone-assassin theory?

JFK: The Investigations examines the investigative work done in the last three decades concerning the crime of the century.

The Investigations

- *1963-1964 - **The Warren Commission***
- *1963, 1966-1969 - **The Garrison Investigation***
- *1975 - **The Rockefeller Commission***
- *1975-1976 - **The Senate Church Committee***
- *1976-1979 - **The House Select Committee on Assassinations***
- *1963-Now - **Private Researchers/Authors/Critics***

What are the alternatives to the lone-assassin theory?

How often are assassinations committed by one individual?

Are secret files still being withheld?

Why is this case still so important after three decades?
